

CareerForce.MN.gov Job Search Tool Tip Sheet for Job Seekers

On CareerForce.MN.gov you can:

- Filter by employer, location, keyword and job title
- View the number of job postings by each employer on the site
- Combine filtering and sort options; this allows people to see, for example, all the jobs with a specific keyword listed by how recently they were posted
- View general information including job title, job location and employer
- Select **Read more** to view a position description, wage range, requirements and more
- Select **Learn more and apply** button to take the next step

With a **FREE** CareerForce.MN.gov job seeker account, you can access the **Jobs For Me** features to customize your search:

- Bookmark up to 15 job postings so you can apply for them later
- Save up to 5 searches based on employer, location, keyword and job title filters you've selected
- View job postings that match career goals you've set for yourself
- View the top 10 types of jobs in demand in your region of Minnesota

How is CareerForce.MN.gov different from commercial job search sites?

- All employers whose job postings show up on CareerForce.MN.gov are reviewed and verified by DEED staff or National Labor Exchange staff
 - **WHY IT MATTERS:** Much lower likelihood of scams or “ghost job postings” than on commercial job posting sites like Indeed or LinkedIn Jobs
- No job ads on CareerForce.MN.gov
 - **WHY IT MATTERS:** You can set the filters to control what jobs you see and how you see them; you won't see job postings based on which employers paid to promote their postings like on many commercial job search sites
- You can see how long ago each job posting was posted on the site
 - **WHY IT MATTERS:** Newer jobs may be hired for more quickly than jobs that have been posted for a long time
