# CAREER FAIR TIPS

Polish up your resume, tune up your elevator speech and put your best foot forward to be successful at today's event.

## Take Your Time

A career fair is a rare opportunity to meet people face-to-face without an appointment. Take full advantage. Plan to stick around. Talk to as many company representatives as possible. Collect information on every employer that interests you.

## Make a Good First Impression

- Display a positive, can-do attitude
- Smile, make eye contact, and give a firm handshake
- Be courteous, polite, and likable
- Show that you are willing and motivated to learn and grow

## Know Yourself and Your Skills

- Develop a 20-second elevator speech that includes your work background, related skills and training, and areas of interest
- End your introduction with a question for the recruiter, to help start a conversation
- Practice delivering your introduction slowly and clearly, with enthusiasm and a smile
- Offer a copy of your resume or business card
- Know the schedules that you're able to work

## Ask Questions

- About prospective jobs
- About the application process
- Get the names of key contact personnel within targeted companies
- Ask when an interview might be possible
- Establish a follow-up time to contact employers of interest
- Take notes about employer responses

## Don't Ask About Salary or Benefits at the Fair

- Focus on finding out more about the company and prospective jobs
- Establish how you would be an asset to the company

## Follow Up with Companies

- Send a cover letter and another copy of your resume
- Tailor the documents to reflect your conversation with the recruiter
- Double-check spelling, especially of names
- Being organized, prepared, personable, and confident will help you be memorable for all the right reasons
